## GRAMPOUND WITH CREED

### PE Learning Ready - Code of Conduct

- If you have forgotten any part your PE kit please see your teacher/PE teacher as soon as possible so that you can be given spare kit to wear.
- If you have a note and are excused from the practical elements of the PE, then please get changed into your PE kit, as you will have another role within the lesson.
- Please ensure your drinks bottles are filled up before the start of the lesson & that you take them with you, as you will not be able to leave during the lesson to fill them up or collect them.
- For yours and others safety **no jewellery** is allowed to be worn in PE.
- If your hair is long enough, it should be tied back, this applies to both girls and boys.

**Always try your best** - we are here to help you achieve and want you to succeed in every way that you can!

**\*Remember that there is a SPORT or PHYSICAL ACTIVITY out there for everyone** - you just need to find it, so make sure you give ALL activities 100% effort!\*

 Public Health England

#ValueofVaccines

## Vaccines save lives

After clean water, vaccination is the most effective public health intervention in the world. Vaccines save lives and promote good health. It's vital that everyone eligible gets vaccinated.

# Which flu vaccine should children have?

There are two types of flu vaccine available for children in 2019/20 – the 'live' nasal spray vaccine and the inactivated injected flu vaccine. This chart indicates which vaccine children should have.

What is the child's age?

## Notes.

- **Those aged two and three years old on 31 August 2019 (but not four years old)** are eligible for flu vaccination in general practice.
- **All primary school aged children (those aged 4 to 10 years old on 31 August 2019)** are eligible for flu vaccination in school.
- **At-risk children** include those who have long-term health conditions such as asthma and other respiratory diseases, liver, kidney and neurological conditions including learning disabilities, even if well managed.
  - **The nasal spray vaccine** is a 'live' vaccine but the viruses in it have been weakened so they cannot cause flu. It is not suitable for all children including those who are severely immunocompromised, or are on salicylate therapy.
  - Specialist advice should be sought for children who have needed intensive care due to asthma or egg allergic anaphylaxis, or have been taking regular oral steroids for asthma.
  - Children who are wheezy at the time of vaccination or have been wheezy in the past 72 hours, should be offered a suitable injected flu vaccine to avoid a delay in protection.
  - See the **Green Book Chapter 19 Influenza** for details: [www.gov.uk/government/publications/influenza-the-green-book-chapter-19](http://www.gov.uk/government/publications/influenza-the-green-book-chapter-19)
